

## Specialist Installations Division

An 1150T box new-build potato store was undertaken for Dennis (Haddenham) Ltd, based in Cambridgeshire.

According to Peter Dennis there wasn't any hesitation in asking Jeremy Nunn of the Specialist Installations Division to do the job.

He said: "It was our experience of working with Jeremy in the past that made the decision to invite him back an easy one. They did a good job the last time."

Over the years Dennis (Haddenham) Ltd have worked with Jeremy for building conversations and

grain dryer installations as well as a similar project, to this new-build, in 2001.

Jeremy adds: "This was not the easiest of sites to work with and it has involved negotiations with planners and the Highways Authority but it is a pleasure to be working with the Dennis family again."
